

HOW COALITIONS ARE CHANGING COMMUNITY SYSTEMS THROUGH EFFECTIVE PRIMARY PREVENTION

HOW COALITIONS ARE CHANGING COMMUNITY SYSTEMS THROUGH EFFECTIVE PRIMARY PREVENTION

The Leaves: Communities Empowering All Youth to Thrive

The leaves represent what we are striving to achieve: an environment in which all youth feel supported to make healthy decisions and engage in positive behaviors.

The Trunks: Community Partners Supporting Youth

The trunks represent the various sectors, agencies, groups, and individuals who are coming together in our community to break down silos and create collective action and change to support youth development.

The Connected Root System: Core Components of Systems Change

The shared root system represents the collective actions that our coalition is taking in our community to improve or change societal and organizational systems that can enhance the lives of youth.

The Water: Our Coalition

The water represents the critical role our coalition plays in changing these community systems – we are the entity that is the driving force for creating this change!
